San Mateo Celebrates! A National Library Week Festival

April 6-12, 2025

Supported by thousands of community members from San Mateo, Hillsborough, and beyond, *San Mateo Celebrates! A National Library Week Festival* is a vehicle for local businesses big and small to show their support for our community of 76,000+ library card holders, while also making real impact in expanding our reach to those who may not yet know about—but need—the free services, programs, and resources our San Mateo Public Library offers.

Designed to delight a wide range of audiences, *San Mateo Celebrates!* is a week of specialized programming; amplified versions of what is made accessible by our Children's, Teens, Adults, Literacy, and Circulation departments year-round.

With your support, this magical and intergenerational week of cultural and educational events can continue to grow to its full potential, creating an annual opportunity for wholesome and intergenerational exploration, learning, and connection.

Festival Mission

The week of programming is designed to:

- Highlight and amplify what the Library does year round
- Make participants aware of the free programs, services and resources at their local Library
- Expand opportunities for cultural edutainment and intergenerational connection in our community

Additional Opportunities for Support

Help us save SMPL's 25-year-old Summer Learning Program, a community cornerstone that in 2024 kept over 6,000 kids and 1,350 teens on the path to academic success over summer break.

With the loss of Measure K funding, the program is at risk for 2025. We're launching a Fund-A-Need campaign during *San Mateo Celebrates!* to raise the \$60,000 needed to continue this program.

- We're seeking **seed funding** to kickstart donations which will be credited in promotional materials. Join us to ensure literacy and learning thrive in our community!
